

Daytona USA 2001 Music Files:

Here be my notes on the Daytona USA 2001 music files and what they are. Mind the mess; it's just been my quick typing for myself. I called the mirror mode files, *Flipped*, because it was all I could think of at the time.

This'll change the tunes for 777 Speedway, Dinosaur Canyon & Sea-Side Street Galaxy to their originals, Mermaid Lake to Pounding Pavement, the GAME OVER bit to the original arcade version, as well as David Goes To Victory Lane and the attract mode. If you want the changes to National Park Speedway & Desert City, you'll need to provide your own copy of Daytona USA Championship Circuit Edition, or use something else, or leave them as they are. These changes only affect the normal direction, and the backwards direction I think.

I haven't put all the names in, like King Of Speed, Let's Go Away, etc.
